

Detroit Wayne Mental Health Authority

640 Temple, 8th floor Detroit, MI 48201-2558

Phone: (313)833-2500

www.dwmha.com

FAX: (313)833-2156

TDD: (800)630-1044RR/TDD: (888)339-5588

Bulletin Number: 15-008

Issued: February 12, 2016 (**revised**)

Effective: March 1, 2016

Subject: Assessments and Medication Review

Provision of Service Affected: Nursing Facilities, Skilled Nursing Facilities, Domiciliary or Rest Home, Home Visits

Applies to NSO Direct Contract for services in the Nursing Facilities, MCPNs, and MiHealth Link Fee-for-Service

Approved Codes: Assessments and Medication Review using Evaluation and Management Codes:
99304 – 99310; 99324 – 99328; 99334 – 99337;
99341 – 99345; and 99347 – 99350

Guidance Usage:

The Evaluation and Management (E/M) codes are used for services provided to DWMHA consumers in a Skilled Nursing Facility (SNF), Nursing Facility (NF), Domiciliary or rest home, or home visits. These may be persons covered by the Direct Contract with NSO for service in the SNF and NFs, persons covered by MCPNs, or MiHealthLink (MHL) consumers. Each service code is limited to one (1) Encounter and requires start and stop times.

The provider's services must be medically necessary and based exclusively on the documentation of the service. The documentation must include counseling/coordination of care. It is imperative that the documentation accurately portrays the services provided using the key components, counseling/coordination with the consumers and/or family or caregiver. These service codes are inclusive of all the requirements according to the code description (see attachments) which require start and stop times.

Board of Directors

Herbert C. Smitherman, Jr., MD, Chairperson
Marsha Bianconi
Constance Rowley

Dr. Cheryl Munday, Vice-Chairperson
Angelo Glenn
Dr. Iris Taylor

Timothy Killeen, Treasurer
Bernard Parker
Terence Thomas

Dr. Cynthia Tauger, Secretary
Frank Ross
Heather Underwood

Thomas Watkins, President/CEO

The providers of services: Doctor of Medicine or Osteopathy (MD or DO), Nurse Practitioners (NPs) and Physician Assistants (PAs).

Background:

The complexity level of an Evaluation and Management (E/M) visit and the CPT code billed must be a covered and medically necessary visit for each consumer. The E/M visit represents a “per day” service per consumer as defined by the CPT code. The physician or Nurse Practitioner or Physician Assistant who performed the E/M visit must personally document the service in the medical record, and the documentation should support the specific level of E/M visit to each individual consumer.

For purposes of reporting or billing for E/M services, consumers are either new or established depending on previous encounters with the provider within the last three years.

A **new consumer** is an individual who has not received any professional services from the physician or another physician of the same specialty who belongs to the same group practice within the previous three years.

An **established consumer** has received professional services from the physician or another physician of the same specialty who belongs to the same group practice within the previous three years.

When counseling and/or coordination of care dominates (more than 50 percent of) the physician/consumer and/or family encounter (face-to-face time in the office or other outpatient setting, floor/unit time in the hospital, or NF), the consideration of time is the key or controlling factor to qualify for a particular level of E/M services. The total length of time for reporting the encounter documentation is to be evident in the consumer’s record. The documentation should include a description of the counseling and/or activities of coordination of care.

Definition:

Domiciliary Care Visits, Rest Homes and Custodial Care: The place of service for reporting evaluation and management (E/M) services to consumers residing in a facility which provides room, board, and other personal assistance services, generally on a long-term basis. These CPT codes are used to report E/M services in facilities assigned places of service (Assisted Living Facility POS = 13), (Group Home POS = 14), and (Custodial Care Facility POS = 33).

Home Services: The place of service for reporting evaluation and management (E/M) services furnished to a consumer residing in his or her own private residence (e.g., private home, apartment, town home) and not residing in any type of congregate/shared facility living arrangement including assisted living facilities and group homes. These CPT codes are used to report E/M services in the consumer’s own private residence (Home Services POS = 12). There is a requirement for physician presence when using Home services codes 99341-

99350. A physician cannot bill the CPT code for a home visit unless the physician was actually present in the beneficiary's home.

Homebound Status: The consumer must be confined to the home for services to be covered. For home services provided by a physician using these codes, the consumer does not need to be confined to the home. The medical record must document the medical necessity of the home visit made in lieu of an office or outpatient consumer visit.

Initial Nursing Facility Care: The place of service to report the initial federally mandated visit. Only a physician may report these codes for an initial federally mandated visit performed in a SNF or NF (with the exception of the qualified NP or PA when State law permits). There shall not be payment for more than one E/M visit performed by the physician or qualified NP or PA for the same consumer.

Per the regulations at 42 CFR 483.40 (f), a qualified NP or PA , shall meet the following, at the option of the State in order to perform the initial federally mandated visit in a NF:

- 1) Collaboration and physician supervision requirements
- 2) The State scope of practice and licensure requirements, and
- 3) Not employed by the NF

Medically Necessary Visits: Qualified NP or PA may perform medically necessary E/M visits prior to and after the physician's initial visit in both the SNF and NF. Medically necessary E/M visits for the diagnosis or treatment of an illness or injury or to improve the functioning of a malformed body consumer are payable under the physician fee schedule under Medicare Part B.

Nursing Facility Setting: The place of service where a physician or a qualified nurse practitioner (NP), physician assistant (PA), who is not employed by the NF facility, may perform the initial visit when the State law permits. The evaluation and management (E/M) visit shall be within the State scope of practice and licensure requirements. When the E/M visit is performed the requirements for physician collaboration and physician supervision is met. (Nursing Facility POS = 32).

Skilled Nursing Facility Setting: The place of service following the initial federally mandated visit by the physician, the physician may delegate alternate federally mandated physician visits to a qualified NP or PA who meets collaboration and physician supervision requirements and is licensed as such by the State and performing within the scope of practice in that State. (Skilled Nursing Facility POS = 31)
